Learning Center Work Report

New Physiotherapist joined in our Learning Center on 3rd of this month.
On 8th & 9th Karthi from Sindhipattu, Balaji from Melvaiyalamur joined in our Learning center.
Tamilarasan – long absent – Parents called and counseled
On 12th of this month staff meeting organized
Soft toys for the Learning Center bought on 16th of this month
Jayashree – Long Absent – Counseled on 17th of this month
On 19th of this month new child Sharmila joined in our Learning Center
This month Vocational training materials purchased

Last month we published an advertisement in the daily news paper for the requirement of the Physiotherapist. Through this advertisement we received a phone call interview and a female candidate came to the personal interview. At the time of interview we find that the candidate Kanchana is suitable to our set up and we appointed her to take care of our Learning Center Children.

The vehicle running additional distance to cover two more children, these villages are situated around 2 kilometers away from the main road where there is no bus facility. Deepak previously stayed in his aunt's house and came to our Learning Center for his developments. While we extend the vehicle route this child can came from his house. In this same village Karthi with the diagnosis of Hemiplegia and with speech problem

admitted in our learning center this month. By adding three more kilometers we are covering one more child Sharmila, Mentally Retarded with sporadic speech complaints but she is very active. The child brought by the local school Head Master and requested for our Learning Center admission.

The child Balaji from Melvailamur village (2 km away from child Ajai Guru Village), Parents are working bangalore, he living with grandfather. The child with the complaints of asking 1 Re. with every body, habit of biting the hand always, using very vulgar words, Mentally Retarded.

The vehicle is running 35 kilometer additionally per day for both pick up and drop trip to serve the 4 needier children. To compensate the extra kilometer the vehicle man increases the vehicle Rent 50 Rs. per day.

Previously we used the plastic bathroom utensils, which broken very often due to the rough use of the children. So this month we bought iron and aluminum utensils for the water storage purpose.

This month we bought the soft toys, sound toys, sponge toys and etc., for the severely affected children.

We received a child named Sasi Kumar from Mettu Vayalamoor was we can not able to extend our vehicle facility. Due to this the child is not able to admit immediately in our Learning Center. The child is assessed and kept in waiting list.

Long Absentees

Tamilarasan, is attending our Learning Center from the maternal grand mothers house because the father of the boy is not interested to keep the child with him. In the last holidays the maternal uncle says to the mother that he don't want to keep the child in his house. So the mother took back her child. In the mean time the father hit the boy which causes short breathlessness. The mother requested to extend the vehicle service to that village which is not possible. Due to this the child is not attending our Learning Center for around one month. We called the maternal grand mother and the mother, counseling made to send the child to our Learning Center.

Renu, the parents are still continues their work (wood cutting) in the interior village which is not able covered. We are still motivating the parents to bring the child to our learning center.

Jayashree, due to the family problem the father and mother are living separately, the mother's fracture in the collar bone is still not cured. Due to this problems the child is irregular to our Learning Center this month.

Sudhakar, Last month the mother says he has stomach problem. The first week of this month it increased which leads to indigestion, vomiting and diarrhea. As they are under the Siddha medicine treatment, the parents underwent the treatment. After this treatment

the boy became normal, so he not attended the learning center for first two weeks. After cure of this problem now he is attending our Learning Center.

Parents Visit

This month 48 persons, including the parents and outsiders are visited our Learning Center and found the activities taken place in the Learning Center.

Staff Meeting
