

## Money transfers

### 1 On 23 Dec 2005:

Dear Friends,

As mentioned in the previous email, we have transferred €2800 for Asha Delhi project. The transfer was executed on 22nd Dec 2005 in Asha Munich bank account. We have used money2india to transfer the amount.

Currently money2india shows the above money as received at their end on 23rd Dec 2005. I think we would get an exchange rate of 1€ = 52,82640 for our transfer. This is based on the ICICI money2india euro-inr exchange rate details shown for today.

I shall track the movement of the same & keep the group posted on the progress. Best

Regards

Hemant

The funding for this project is from Asha Munich. However, LA has also remitted \$1000 for this project. The money has arrived and Vallabh Bhai will be transferring it to our account. Asha Munich has provided funds to support this project for six months. However, the chapter felt that follow-up on the admission process will be important as we need to monitor the progress of the child as well as whether the school is treating them on par with other children
