Jeevan Gnanodaya Industrial Training Centre,

**8. Location of school/s**     Urban     Rural     Other \_\_\_\_\_

**9. Specify the type of education provided (e.g. basic literacy, vocational training etc.).**

Basic literacy school education upto 12th std. Providing insdustrial training trough our own industrial training centre.

**10. Please tell us about your teaching techniques (conventional vs. alternative).**

In teaching children with hearing impairment we follow the conventional lip-reading method and speech therapy. Generally sign languages is taught to most of these students in other schools where as we give more importance to make them use vocal chords to help them prove more communicative with the general public.

We have more than twenty five students with mental retardation who are given basic education according to their level of understanding.

In we have specially qualified teachers to impart education to both these groups.

We see to it that haring - aid and them accessories are provided to the on individual basis studetns.

**11. What is the literacy rate in the local community?**

Though chengalpattu is a town and has more educated men, the rural areas in and around chengalpattu have less literacy rate. In particulars, if we take the case of our students with hearing impairment and mental retardation their parents are poor and uneducated and the even many normal students of these year turn drop outs here for want of proper guidance and assistance.

**12. Describe the socio-economic background of the children and their parents (e.g. education, occupational). If any of your students are employed, please tell us about that as well.**

As for the occupations of the parents most of them work as in companies hospitals etc and only a few of them hard reached school finals.

Regarding employment as many as 25 students belonging to 5 sets who have so for completed school education and also technical training are working in various chennai based companies. Has an assistant the average earring comes up to Rs. 3,500 a month. The fact that they continue in their jobs goes to prove that they are discharges their duties to the fullest satisfaction of everybody concerned.

**13. In addition to education, does your group provide any other services to the children in your schools (e.g. food, health care, clothing, etc.)?**

Ours is a residential school and the children are provided food, clothing, shelter, Medical educational etc absolutely free of cost.

**14. Does your school have:**

**15. How many children are currently enrolled in your school(s)?**

Male 273 Female 135 Age Range 3-22

**16. How many staff are employed at your schools?**

Teachers 26 Minimum Qualifications UG

Other staff 12

**17. Average distance the children travel to attend your school 30Km****18. How many children have gone through your program in the past five years and what are they doing currently? Please tell us about their future education and employment possibilities.**

Since the day school had come into existence some 500 children have been benefited so far. If we take the past five years some 75 students with hearing impairment have successfully completed their school final and two of them are continuing their studies in college. 2.5 of them have got employment in various Chennai – based concerns. As for future education and employment possibilities to our students our trust aims at constructing a factory of our own provided we get sufficient funds and also build a college to provide higher education in for our students.

**19. Do you help your students with their future education efforts after they have passed out of your school?**

We do keep in constant touch with our students even after their leaving the school. Yearly thrice we hold meetings with them to know how they fare what hurdles and difficulties they face how does the society treat them and give counseling to help them improve their job.

**20. Are there any other schools (Kindergarten/Balwadi, Elementary school, High school) in the area? If so, please list the schools and the range of classes each of them offers.**

There are five primary schools and five high schools in our area and for normal children but there is no special school for the physically challenged. And the other schools generally do not admit physically challenged students.

**21. Is your program different from that provided at these schools? Please explain.**

The other schools in our area are for normal children and as they do not provide industrial training to their students also most of those schools charge fees from the students where as our is free. Our is the only residential school in the area.

**22. Why are the children in your school/s not attending government/other schools in the local area?**

In our area generally normal schools do not called to the especial needs of the physically challenged children. Also, the other schools are not free schools not residential schools. Hence the children in our school cannot attend those schools and generally they are not admitted in those schools.

**23. Do you try to involve the parents of the children in the running of the school (e.g. in setting the syllabus etc.)? Please specify.**

At most of the parents of our students are poor, uneducated villages we make if a point to meet and interact with them once in a while and listen pleas and woes as regards bringing up their children. We also give them counseling and guidance to treat their physically challenged children.

**24. What are your expansion plans for the future (e.g. adding more classes or schools)?**

1. At parent our school for the deaf is a Tamil Medium school. We want to have English medium also for the deaf students.
2. As on date we have primary school alone in English medium. In future we plan to expand it to our higher classes too.
3. We plan to include one or two more trade in our industrial training center.

**25. Do you have any suggestions on how Asha can be a positive influence in changing the education scenario in India?**

It is heartening to note that ASHA is doing a lot towards education and rehabilitation of the poor and the needy sections of the society. With your timely help you lend not just financial support but also the much – needed moral support which is most important.

As for suggestions Asha's help in the field A Education of the physically challenged can go a long way in enabling them stand on their own legs and also integrate them into the main stream of life. It is wells know the required accessories and proper opportunities the disable can fare as efficiently as others and hence by

helping the disabled. ASHA can prove to the world that physical handicap doesn't make one inferior to others and that the physically handicapped can also prove to be able contributing citizens of our country.
